# Therma-Tru. You're in expert hands.

Choosing Therma-Tru isn't about just selecting a door. It's about designing an inspired entrance. Creating a look everyone will love. And having confidence that it will perform for years to come.

Whether it's Classic or Contemporary – or somewhere in between – Therma-Tru offers virtually unlimited choices to complement the architecture of a home and a homeowner's sense of style.

But it's more than beauty that makes Therma-Tru the brand builders and remodelers prefer most.\* With more than 50 years of industry experience and technical know-how, we've built a reputation for delivering high-quality, low-maintenance exterior door products for the whole house – from entry to patio.

We invented the fiberglass door because we believe it combines the best characteristics of wood and steel – beauty and performance – without the compromises. And we remain committed to making smart, innovative new products – such as the Classic-Craft Canvas Collection and vented sidelites – that are better and more beautiful every year.

Whatever the entrance needs – from energy efficiency to security – your search ends here. You'll find a range of Therma-Tru- products to meet the criteria for the home and suit the homeowner's lifestyle.

That's where the beauty of choosing Therma-Tru begins.

# Therma-Tru. Door Systems

Uncompromising quality, inside and out.

A Therma-Tru door with genuine Therma-Tru components is more than a beautiful door – it's a complete door system. One that offers uncompromising quality, inside and out. We manufacture or specify every aspect – from the glass to the hinges – all engineered with craftsman precision for durability and reliability through the years. So you can be confident that it will perform as exceptionally as it looks.

# Backed by our lifetime limited warranty.

#### **Lifetime Limited Warranty**

We stand behind more parts and for longer than other door companies because we make or specify everything that goes into our door system. A Therma-Tru fiberglass door system is backed by the industry's most comprehensive lifetime limited warranty.

# **Energy Efficiency**

In any region or climate, energy efficiency is key. More than 80% of Therma-Tru door and glass options are ENERGY STAR® qualified and National Fenestration Rating Council (NFRC) certified, helping save money on energy costs.

#### **Quality Testing**

Our doors, glass and components are held to high standards. We conduct thorough testing to help ensure that our products will live up to a homeowner's toughest quality and performance expectations.

# The Beauty of Choice

The architectural beauty of a Therma-Tru door is easy to see. With the look of real wood, rich panel details and intricate, handcrafted decorative glass designs, there are thousands of possibilities to suit the style of a home and express a homeowner's personal style.

#### **Door System Components**

Have confidence in a door system made with genuine Therma-Tru components to meet the needs of many applications. More on pages 6–7.

#### **Door Selections**

Find choices in design, texture and material with many configurations available to find the ideal door system. More on pages 8–15.

### **Decorative & Specialty Glass**

Complement any Therma-Tru door with a variety of glass shapes and designs. More on pages 16–19.

#### **Finish Options**

Complete the desired look with stain or paint, including the Same-Day. Stain kit available in seven popular finish colors. More on pages 254–255.

# Selecting a Door System

Therma-Tru pays close attention to regional and consumer trends to deliver choices designed to inspire. Keep these considerations in mind when choosing from our portfolio of door system products:

- What is the size of the doorway?
- What is the style of the home?
- Does the homeowner want to stain or paint the door?
- How much light or privacy is desired?

Also consider:

- Regional weather conditions and building codes. See pages 22–23 for more.
- Therma-Tru 2015 new products.
  See pages 24–31 for more.

# Engineered to Work Together

Our complete door systems feature doors, glass and components engineered to work together to resist leaks and drafts, and help maintain energy efficiency and weather resistance.

Sill and bottom sweep form a tight seal against wind-driven moisture infiltration at the bottom of the door system and help channel moisture away from the home. Sill pan (recommended) adds an extra layer of protection to help keep moisture away from the subfloor.

Corner seal pads (inswing only) complete the seal between the sill cap, bottom sweep and weatherstrip to help block potential pathways where wind-driven moisture can infiltrate the bottom corner of the door system.

Hinges position the door to properly compress the weatherstrip to help form a tight, even seal against air and moisture infiltration when the door closes.

Weatherstrip is specifically engineered in a variety of profiles to provide the best possible fit with our door systems, helping to deliver a precise seal between the door and frame.

# Weatherstrip Air & Moisture Multi-Point Lock

(recommended) engages the door and frame at three points from top to bottom, helping to preserve the weatherstrip's seal even under wind pressure.

Cip-lite frame (shown right) features a compression seal against weather on the outside of the door and an adhesive seal against weather on the outside of the glass. Flush-glazed glass (shown left) is built directly into the door without a Lip-lite frame, featuring a high-performance adhesive weather seal inside and out.

# A Complete Door System

More than beautiful doors and glass; a complete door system includes the components used to assemble it. We manufacture or specify every aspect of a complete door system. The Therma-Tru genuine components shown here are our premium options for long-lasting durability.

Composite Adjustable Sills

Inswing and outswing composite sills resist rotting and insects. Inswing adjustable sills help to maintain a tight seal over time.

Dual-Bulb /
Dual-Fin Bottom
Sweeps 

(Inswing Only)

A dual-bulb, dual-fin design helps maintain tight contact with adjustable sill caps and creates added barriers against moisture.

Innovative options include our patented jamb assembly, featuring the 7-shape corner seal pad which creates an air pocket that helps prevent a vacuum from wicking moisture up the weatherstrip.

Removable Weatherstrip

Resilient design compresses when closed and springs back when open, protected by a durable jacket, for long-lasting sealing power.

Increased engagement between door and frame enhances stability and the homeowner's sense of security. (Highly recommended for 8'0" and double fiberglass doors. Not recommended for steel doors.)

Ball-Bearing Hinges

Hinges with ball bearings protecting each hinge pivot, or "knuckle", offer added support and stability.

(Recommended for Classic-Craft. doors, 8'0" doors, doors with glass, and Impact- and Fire-rated fiberglass doors.)

Frame Components

\$2,000

Check with your Therma-Tru seller for options to complete the door system, including rot-resistant brickmould, jambs, mullions and coil cladding manufactured to our specifications.

For more, including these additional component options, see pages 245–253:

Sill Pans ♣, Rain Protection ♣, Strike Plate and Astragals ♣.

#### ■ Tru-Defense: The Ultimate Protection

Therma-Tru fiberglass doors are available with our exclusive Tru-Defense, system, which integrates specific components engineered and tested to deliver outstanding protection in all kinds of weather conditions. And it's backed by a Warranty Rider that provides for cash reimbursement that may be used toward secondary damage to flooring and trim, and the labor to make repairs if water infiltration occurs.\* Look for the ( ) icon. For details, visit www.thermatru.com/trudefense.

# Water Infiltration Cash Reimbursement Limit Latch and Deadbolt Lock with Standard Assembly: \$250 with a Therma-Tru Sill Pan: \$500 Multi-Point Lock with Standard Assembly: \$750 with a Therma-Tru Sill Pan: \$1,500 Multi-Point Lock with NAFS-Certified Door System: \$1,000

with a Therma-Tru Sill Pan:

# **Door Selections**

Choose from our many door selections to complement the architectural style of the home with a variety of options. Fiberglass or steel material choice. Wood-grained or smooth texture. Stainable or paintable finish.

# Classic-Craft<sub>®</sub> Collections Pages 32-105

Find the right style for any personality. Choose from premium fiberglass entryways in four wood grains or a smooth surface that rival custom wood.

Rated a Consumers Digest
Best Buy for its exceptional
warranty, quality of materials and
construction, and resemblance
to a real wood door.

# Fiber-Classic Collections Pages 106-191

The industry's first fiberglass door delivers the look and feel of real Mahogany and Oak with excellent performance and value.

Smooth-Star<sub>® Pages 107-191</sub>

A smooth, ready-to-paint fiberglass door that offers excellent performance and value.

Steel Pages 192–216
Bring style and affordability together to create very attractive results with our steel doors.

WARRANTY

 $Pulse_{\rm @ Pages \, 222-233}$ 

Pulse is form *and* function. Sleek, modern designs and retro glamour in entrances that perform to our standards.

# See the difference.

Discover architecturally correct designs, exclusive glass options and rich, authentic finishes.

# Feel the difference.

Experience the integrity of a solid, precision-engineered entryway built for long-term durability, stability and peace of mind.

Extraordinary in every way.

# Classic-Craft Premium Entryways

A premium entryway that's truly unique and uncompromising in every detail.

One that blends precision-engineered features with architecturally correct details to produce an entryway that performs as exceptionally as it looks – instilling confidence and peace of mind. And it's rated a *Consumers Digest* Best Buy for its exceptional warranty, quality of materials and construction, and resemblance to a real wood door.

Premium – right down to the edge. A solid hardwood square edge delivers a genuine wood appearance.

Standard fiberglass bullnose edge.
The bullnose profile, typical of other fiberglass doors, detracts from the authentic wood look.

The look of real wood.
Realistic wood grains that are virtually indistinguishable from high-grade wood doors, thanks to Therma-Tru's AccuGrain, technology.

**Details that define a custom door.** Crisp, handcrafted elegance creates embossments that are deeper than standard fiberglass doors.

# Compare for yourself.

#### Architecturally correct for true classic beauty.

Doors designed to be architecturally correct, with proportions modeled after classic architectural principles, to create a more premium entryway.

Up to 25% wider panels\*

**Standard Fiberglass Door** 

# Fiber-Classic. & Smooth-Star. Doors

Bring home the authentic look of wood doors with the low-maintenance benefits of fiberglass. From front entry to patio to utility doors, the Fiber-Classic and Smooth-Star portfolio offers flexible options to fit virtually every entrance with beautiful, energy-efficient, durable and secure fiberglass doors. Choose from a wide range of door styles and sizes, and decorative and specialty glass, as well as innovative solutions like vented sidelites. Also available: Impact-, Fire- and Sound Transmission Class- (STC) rated options.

#### Portfolio versatility.

With many door styles in common and interchangeable glass designs between collections, it allows flexibility to find the right door, in the right texture, without compromises.

#### On-trend surfaces.

Available in a variety of textures, including grain choices with the look of real wood or a smooth, paintable alternative to steel. (Wood-grained images shown in Light Oak stain.)

High-definition panel embossments.

High-definition panel embossments are standard on all doors and sidelites.

# **Door Construction**

Therma-Tru fiberglass doors offer the authentic look of wood. It's virtually impossible to tell the difference. But the beauty goes beyond skin deep. We combine craftsmanship and innovation to build our doors for long-lasting energy efficiency, durability and security.

# Classic-Craft. Premium Entryways

#### **1** Enhanced Weather Resistance

No more worries about rotting, warping or twisting. Classic-Craft premium entryways are tested and designed to resist extreme weather conditions and the damaging effects of moisture. Both the top and bottom of the door are protected by composite rails for a longer-lasting entryway.

#### Solid Security

Classic-Craft premium entryways feel solid and close with authority. A 4-1/4" wide beam of engineered lumber runs from the top to the bottom of the locking side of the door to add mass and rigidity, giving the door weight and a natural wood feel.

#### **3** Excellent Durability

Built to stand up to the elements and years of wear, Classic-Craft's fiberglass skins are thicker than other standard fiberglass doors to provide added durability and better long-term performance.

#### 4 Higher R-Values

Classic-Craft premium entryways contribute to an energy-efficient home. A polyurethane foam core provides up to four times the insulating R-Value of wood.\*

#### **6** Edge-to-Edge Moisture Protection

Resist moisture at every turn – and along every edge. Classic-Craft premium entryways have hardwood and composite edges that help prevent moisture penetration.

# Fiber-Classic. & Smooth-Star. Doors

#### Weather Resistance

Composite rails protect the door at the top and bottom edges to help block moisture that can wick into doors.

### 2 Security

An enhanced lock block combined with 1-1/4" engineered lumber lock and hinge stiles increase rigidity and stability.

#### **3** Durability

With very little maintenance, a fiberglass door can bring a home years of durability. Unlike wood, fiberglass will not warp or rot. And, unlike steel, it will not dent or rust.

#### 4 R-Values

Built with a polyurethane foam core, Therma-Tru fiberglass doors insulate against cold and heat for exceptional energy efficiency, offering up to four times the insulating R-Value of wood.\*

# Decorative & Specialty Glass

A Therma-Tru door system with decorative glass can create an entrance that makes a statement - one that says the homeowner has high standards for style, quality and craftsmanship.

- Our wide array of glass designs, from simple to intricate, reflect the home design trends and homeowner desires of today and tomorrow.
- Numerous glass colors, textures, shapes and caming options are available to complement any Therma-Tru door.
- Our glass designs are researched in the market to ensure they are highly rated in consumer preference.
- Our decorative glass is handcrafted and built with all-glass bevels for premium quality.
- Our glass designs offer varying levels of privacy and light to suit homeowner needs.
- All Low-E and clear glass panels are tempered to provide added safety.

# Doors come to life with Therma-Tru<sub>®</sub> glass.

#### More than 10% wider glass

**Classic-Craft Premium Glass** 

**Standard Glass** 

#### \*Compared to other standard fiberglass doors. Note: See your Therma-Tru seller or visit www.thermatru.com for details on ENERGY STAR qualified products.

# Classic-Craft<sub>®</sub> Premium Entryways

- An exclusive collection of 13 decorative glass families, starting on page 32.
- Close attention to detail produces truly distinctive designs you won't find anywhere else.
- More than 10% wider glass\* welcomes more light into the home and creates a distinctive entryway.
- Fiberglass lite frames are made with the same material as the door to blend seamlessly with the rest of the entryway when stained or painted.
- All sidelites are made with flush-glazed glass for a truly seamless, consistent appearance.
- All clear glass options are Low-E, providing long-term energy efficiency.

# **Special Quote Program**

Don't sacrifice the look you want. With thousands of standard glass choices and additional glass options available through special quote, we can help you find the right look for virtually any home. See page 256.

#### Fiber-Classic. & Smooth-Star. Doors

- A portfolio of 16 interchangeable decorative glass designs, starting on page 110.
- Standard 22" glass width with Lip-lite frame and flush-glazed options with 25"-27" glass width invite light into the home for a more brilliant interior. See page 169 for flush-glazed options.
- Lip-lite frames are heat and fade resistant, and suitable for use with a storm door.
- Low-E glass is available for internal blinds, divided lites and clear glass, providing exceptional energy efficiency.

# Privacy Glass

All Therma-Tru doors and sidelites can be fitted with our four elegant privacy glass designs – Chord, Chinchilla, Rainglass and Granite. Each of them enhances a home with privacy, peace of mind and the beauty of textured glass, while still allowing natural light to brighten the interior.

- Varying opacity levels range from 8–10 to find the right balance of privacy and light for the home.
- All privacy glass options are triple-pane, providing added security, thermal efficiency and reduced sound transmission.
- Triple-pane construction also allows for an easy-to-clean surface.

Available in Classic-Craft, Fiber-Classic, Smooth-Star, Profiles, Traditions and Pulse doors and sidelites.

# Convenient choices for more light.

# Low-F Glass

Factory-coated Low-E glass delivers exceptional energy efficiency. Available in Classic-Craft, Fiber-Classic, Smooth-Star, Profiles, Traditions and Pulse. Look for the (\*\*) icon.

In cold weather, Low-E glass can help reduce the loss of heat by reflecting the heat back inside the home.

In warm weather, Low-E glass reflects the sun's rays off of the glass, helping to keep the interior of the home cool.

# Flush-Glazed Glass

Glass built directly into the door during the manufacturing process eliminates the need for a lite frame and provides a high-performance weather seal. Flush-glazed glass features clean lines and eliminates the need for screw plugs. It also offers up to a 16% increase in visible glass area compared to conventional lite frames.

Available in Classic-Craft, Fiber-Classic and Smooth-Star. Look for the (🛦) icon. See page 117 for more.

\*Available in Special Quote Program.

Note: See your Therma-Tru seller or visit www.thermatru.com for details on ENERGY STAR qualified products.

# Internal Blinds

Enjoy the privacy and convenience of a cordless blind enclosed between glass. Control the desired level of light and privacy with the simplicity of a single handle.

- Protected between two panes of tempered glass for enhanced safety and performance.
- With no dangling cords, this is a kid- and pet-friendly choice.
- Blinds remain dust free, and glass is easier to clean than traditional blinds.
- Choose Low-E glass for maximum energy efficiency or standard clear glass.

Available in Fiber-Classic, Smooth-Star, Profiles, Traditions and Pulse doors and sidelites.

Single-Hand Operator
Privacy Bar

# **Divided Lites**

Enhance the beauty of any home with a variety of divided lite options for entry and patio doors. Tailor the look with different texture, profile and color choices. See page 116 for more.

- Coordinate with the home's window patterns for a cohesive look and increased curb appeal.
- Choose from Colonial, Craftsman or Prairie styles to suit the home's architectural details.
- Available glass options include elegant privacy glass, energy-efficient Low-E and clear.

Available in Classic-Craft, Fiber-Classic, Smooth-Star. Profiles and Traditions.

# The premium smooth, paintable choice.

For years, Classic-Craft premium entryways have defined beauty and durability for fiberglass doors. The innovative Canvas Collection delivers a high-performing alternative to custom wood and heavy-gauge steel. These doors pair durable Classic-Craft construction with crisp embossments and custom wood details. Find choices to match any home décor with a smooth surface that's paintable inside and out, and available in more than 380 door and glass combinations.

- The aesthetics of wood and the performance of fiberglass in a smooth, paintable door.
- Extraordinary in every detail with precision-engineered features and architecturally correct details.

- The largest line of door and glass combinations available in any Classic-Craft collection.
- Classic-Craft is rated a Consumers Digest Best Buy for the fiberglass entry door category.
- Available in many styles and sizes including 8'0" heights - to complement more home styles.

See the collection, starting on page 88.

Fire-Rated Tru-Defense WBDR / HVHZ

# What Makes Therma-Tru Different? Vented Sidelites

# Ventilation and aesthetics second to none.

#### Perfect for the front entry.

- Enjoy the added curb appeal of an elegant front entry unobstructed by a screen or storm door.
- Choose eye-catching, decorative glass designs to complement the front entry door selection.

- Therma-Tru reinvented sidelites to meet the needs of homeowners seeking ventilation, convenience and aesthetics. Keep the incredible look of the entry or patio door system without sacrificing the pleasure of a fresh breeze. There's no need to cover the door with a screen. Choose beautiful vented sidelites instead. And only Therma-Tru offers vented sidelites with decorative glass design options.
- Works as a small swinging door with sturdy stiles to accommodate hinges, multi-point locking system and thumbturn.
- Wide patio mullions provide required structural strength for years of dependable operation.

- Continuous system, recessed strike plates and multi-point locking gears provide security and stability.
- Convenient, removable screens available in bronze and white – are easy to operate and designed for years of worry-free use.

Available in Fiber-Classic and Smooth-Star, starting on page 106.

Tru-Defense Eligible

# Tough When You Need It. Beautiful Always.

② Use the icons to find available Therma-Tru₀ product options in this catalog.

**6**—

WBDR / HVHZ Options: Look for this icon to find door and sidelite styles that can be configured for WBDR or HVHZ.

3 Verify that there is a Therma-Tru product approval specific to your area for the door system configuration before buying.\*

4 Make sure the product is installed in compliance with the product approval to meet building codes.

The performance of the door system depends on how it is installed. Proper installation is required to comply with building codes.

<sup>\*</sup>Product approvals show that the door system meets applicable codes when selected, assembled and installed as instructed.

\*\*Impact and structural performance of a single Therma-Tru fiberglass door with a steel plate lining and a Therma-Tru multi-point locking system.

Note: See your Therma-Tru seller or visit www.thermatru.com for product approvals and installation instructions. Always confirm building code requirements in your area before buying. Follow weather and news reports to assess severe weather situations and obey local authorities' shelter and evacuation orders.

No product guarantees safety for persons or property, nor makes any premises hurricane- or impact-proof.

Constructed to help protect the interior of the home from flying debris and high-velocity winds associated with tropical storms and hurricanes, these products are tested to meet codes and regulations in high-wind and coastal regions, including parts of Florida, Texas and the Carolinas.\*

# **Impact Doors**

Feature a built-in 24-gauge steel plate lining.

# **Impact Glass**

Features special laminated glass construction.

# **Impact Lip-Lite Frame**

Features durable, paintable aluminum construction. An attractive scrolled profile gives a thin, sleek appearance and a screw channel cover helps hide unsightly screws.

#### **Other Considerations**

# **Fire Doors**

We offer an industry-leading selection of fiberglass 20-Minute Fire-rated doors – with 20- and 90-Minute Fire-rated steel options available – for protection with a sense of style. See pages 217–221.

#### Noise Reduction Doors

Therma-Tru Sound Transmission Class- (STC) rated Noise Reduction doors deliver aesthetics with a commercial level of performance for residential projects. See page 190.

# Create a warm welcoming.

An eclectic interpretation of the Arts and Crafts movement, Arborwatch combines 1 narrow reed glass, 2 M seedy glass, 6 waterglass and caming in a symmetrical arrangement accented by 4 pale amber glass, 5 amber artique glass and 6 clear bevels to create a welcoming entryway suited for homes with Craftsman-style architectural elements.

Available in a wide range of sizes in all five Classic-Craft collections, starting on page 32.

# Classic-Craft Premium Entryways

New 8'0" Door Sizes, Styles & Glass Options

Therma-Tru is proud to announce that our Classic-Craft premium entryways will soon be available in more sizes, styles and options to meet the growing trend toward taller doors and wider openings with a premium aesthetic. The additions feature the American Style Collection in a NEW 3'6" x 8'0" size, while our Rustic Collection expands its 3'0" x 8'0" and 3'6" x 8'0" doors to include NEW panel designs, as well as **NEW** glass options. Looks like some of our most popular doors are about to become even more sought after.

More to like about the doors you love.

For a quick reference of our current 3'6" door style options, see the chart

To learn more about availability, call 1-800-843-7628.

# Classic-Craft<sub>®</sub> American Style Collection<sub>™</sub>

Introducing the 3'6" x 8'0" Craftsman 2-panel flush-glazed door with a bigger glass opening than other Therma-Tru. 8'0" Craftsman doors. Available with decorative and specialty glass in simulated divided lite configurations. Pairs with existing 8'0" full-lite sidelites and a new dentil shelf scaled to fit for true Craftsman appeal.

Sample of the New Styles

#### Classic-Craft<sub>∞</sub> Rustic Collection<sub>™</sub>

Introducing the 3'0" x 8'0" and 3'6" x 8'0" 2-panel square top doors with on-trend, wider panel embossments. Available with decorative and specialty glass options for new and existing 3'6" x 8'0" doors. Pairs with existing 8'0" full-lite sidelites, clavos and straps.

Sample of the New Styles

# **Villager**<sub>M</sub>

the Craftsman chevron design with 1 bronze waterglass, 2 seeded glass, 3 clear bevels, 4 gray artique glass and caming. Artistically authentic in every detail.

### **Features Key**

# Classic-Craft Rustic Collection

Casually elegant wood graining.

Designed to complement American
Southwest or Tuscan-inspired home
styles, Classic-Craft Rustic premium
fiberglass entryways feature casually
elegant wood graining that can be
coordinated with decorative glass
and accessories to create
enchanting entrances.

# Classic-Craft, Rustic Collection,

Seamlessly blends Southwest and Tuscan styling with rustic wood grains to evoke Old World charm.

See the difference stain can make. Kit available in seven finish colors on pages 254-255.

### **Architectural Character**

- Architecturally correct design up to 25% wider panels.\*
- Deeper embossments.
- Solid hardwood square edges.
- AccuGrain, technology.
- More than 10% wider glass.\*
- Flush-glazed sidelites.
- Fiberglass lite frames.
- Exclusive glass designs.

### **Heavier Construction**

- 20% heavier construction.\*
- Top and bottom composite rails.
- 4-1/8" full-length engineered lumber lockstile for added weight and rigidity.
- Thicker fiberglass skins.

### **Available Sizes**

- 3'0" and 3'6" wide doors in 6'8" and 8'0" heights.
- 2-½" of height trimmability eliminates rerailing to fit  $80"-82-\frac{1}{2}"$  and  $96"-98-\frac{1}{2}"$  rough openings.

### **Finish Options**

Classic-Craft Rustic entryways can be stained or painted any color.

- WBDR / HVHZ Options: Look for this icon to find door styles that can be configured for WBDR or HVHZ.\*\*
- Fire-rated options available on solid-panel doors. See page 217.
- Tru-Defense. Warranty Rider eligible when properly assembled and installed with all Therma-Tru specified system components, in accordance with the Rider.

\*Compared to other standard fiberglass doors.
\*\*Please verify that there is a Therma-Tru product approval for the configuration before buying.

Note: Finish colors may vary from an actual application due to fluctuations in finishing or printing. Glass privacy ratings may be more or less than indicated, based on glass design and size of glass. Glass designs may differ from depiction due to size of glass and hand craftsmanship. See your Therma-Tru seller or visit www.thermatru.com for more, including details on limited warranties and exclusions, Tru-Defense Rider, ENERGY STAR qualified products and product approvals.

- Introducing the 3'0" x 8'0" and 3'6" x 8'0" 2-panel square top doors with on-trend, wider panel embossments.
- Available with glass options for new and existing 3'6" x 8'0" doors, including Homeward, Augustine, Arborwatch, Borrassa, Lucerna, Rainglass and Low-E glass.
- Pairs with existing 8'0" full-lite sidelites.
- The look of hand-forged clavos and straps adds a finishing touch.

For a quick reference of our current 3'6" door style options, see the chart on page 257.

To learn more about availability, call 1-800-843-7628.

# Classic-Craft. Oak Collection...

# Warm wood graining.

With warm wood graining, Classic-Craft Oak premium fiberglass entryways are designed as the perfect complement to homes with Traditional styling.

# Classic-Craft, Oak Collection,

Features warm wood grains with the look of classic Oak, suitable for homes with Traditional styling.

# SAME-DAY. STAIN

See the difference stain can make. Kit available in seven finish colors on pages 254–255.

#### **Architectural Character**

- Architecturally correct design up to 25% wider panels.\*
- Deeper embossments.
- Solid hardwood square edges.
- AccuGrain<sub>®</sub> technology.
- More than 10% wider glass.\*
- Flush-glazed sidelites.
- Fiberglass lite frames.
- Exclusive glass designs.

#### **Heavier Construction**

- 20% heavier construction.\*
- Top and bottom composite rails.
- 4-%" full-length engineered lumber lockstile for added weight and rigidity.
- Thicker fiberglass skins.

#### **Available Sizes**

- 2'8", 3'0" and 3'6" wide doors in 6'8" and 8'0" heights.
- 2-½" of height trimmability eliminates rerailing to fit 80"-82-½" and 96"-98-½" rough openings.

#### Finish Options

Classic-Craft Oak entryways can be stained or painted any color.

- WBDR / HVHZ Options: Look for this icon to find door styles that can be configured for WBDR or HVHZ.\*\*
- Fire-rated options available on solid-panel doors. See page 217.
- Tru-Defense. Warranty Rider eligible when properly assembled and installed with all Therma-Tru specified system components, in accordance with the Rider.

\*Compared to other standard fiberglass doors.

\*\*Please verify that there is a Therma-Tru product approval for the configuration before buying.

Note: Finish colors may vary from an actual application due to fluctuations in finishing or printing. Glass privacy ratings may be more or less than indicated, based on glass design and size of glass. Glass designs may differ from depiction due to size of glass and hand craftsmanship. See your Therma-Tru seller or visit www.thermatru.com for more, including details on limited warranties and exclusions, Tru-Defense Rider, ENERGY STAR qualified products and product approvals.

# Fiber-Classic.

Mahogany Collection... & Oak Collection...

Wood grains to suit any style.

Choose from two wood-grained collections for the perfect fiberglass door to fit a variety of home styles at an excellent value. Fiber-Classic Mahogany complements rich wood tones in home interiors, extending the look to the outside with beauty and elegance. Fiber-Classic Oak is the door that started the fiberglass revolution, featuring the distinctive look of natural Oak graining.

Bottom: Fiber-Classic Oak Collection, Element Glass, Door – FC756,
Sidelites – FC756LSL, FC756RSL; Transom – EMRT

# Smooth-Star.

Smooth, paintable surfaces.

Smooth-Star is the answer when the best look for the home is delivered in a sleek, paintable package. The more attractive and durable alternative to steel, Smooth-Star fiberglass doors are ready-to-paint with crisp, clean contours that meet the needs of homeowners seeking more color options for their doorways.

# Fiber-Classic. & Smooth-Star. Fiberglass Doors

Therma-Tru gives the homeowner options to choose the style that best fits their personality and home without compromise. Fiber-Classic and Smooth-Star share many door styles in common. And the available glass families cross over between door collections. Find flexible options to fit virtually every entrance from front entry to patio to utility doors.

# Fiber-Classic & Smooth-Star fiberglass doors offer:

- High-definition panel embossments.
- Composite top and bottom rails.
- 1-1/4" engineered lumber lock and hinge stiles.
- 22-½" lock block in Fiber-Classic and 12-½" lock block in Smooth-Star.
- Durable, long-lasting fiberglass skins.
- WBDR Options: Look for this icon to find door styles that can be configured for WBDR.\*
- WBDR / HVHZ Options: Look for this icon to find door styles that can be configured for WBDR or HVHZ.\*
- Fire-rated options available on solid-panel doors. See page 217.
- Tru-Defense. Warranty Rider eligible when properly assembled and installed with all Therma-Tru specified system components, in accordance with the Rider.

Fiber-Classic.
Mahogany
Collection.

Features deep Mahogany graining to complement homes with richer wood tones.

Fiber-Classic.
Oak Collection.

Features the warm look and feel of Oak graining.

Smooth-Star. Features smooth, ready-to-paint

surfaces.

More than a sidelite. Vented sidelites from Therma-Tru let the homeowner enjoy the added curb appeal of an elegant front entry unobstructed by a screen or storm door. Choose from convenient specialty glass options or eye-catching decorative designs. In fact, only Therma-Tru offers vented sidelites with decorative glass. Look for the ( ) icon.

- Sturdy stiles and hinges make the unit work as a small swinging door.
- Wide patio mullions provide dependable operation.
- Multi-point lock and continuous system help provide security and stability.
- Convenient removable screens available in bronze and white – are designed for worry-free use.

#### **Available Configurations:**

**Vented Sidelites** 

Double Doors with Vented Sidelites (Inswing Only)

Note: No Impact options available for vented sidelites.

# Retrofit Patio Sizes

Looking for retrofit options? Choose 2'4" width for 5'0" retrofit doors and 2'10" for 6'0" retrofit doors.

# SAME-DAY. **STAIN**

See the difference stain can make. Kit available in seven finish colors on pages 254–255.

# Decorative & Specialty Glass Designs

#### Blackstone Page 119

Traditional English design meets

1 clear curved bevels, 2 rainglass
and caming to create the distinctive
styling of Blackstone. Entries get
the best of both privacy and

simple refinement.

**Brushed Nickel** 

Black Nickel

#### Crystalline™ Page 121

This time-honored design features geometric styling brought to life with 1 glue chip glass, 2 glue chip bevels, 3 clear bevels and caming. Offering modest privacy, Crystalline is a shining example of traditional decorative glass with lasting beauty.

**Black Nickel** 

**Brushed Nickel** 

Brass

#### Sedona Page 124

and Crafts simplicity is designed with 1 slump glass, 2 clear bevels, 3 clear artique glass and caming. Sedona Art glass featuring ruby red granite glass is also available with black nickel caming.

Art meets glass in Sedona where Arts

Art Glass / Black Nickel

**Black Nickel** 

**Brushed Nickel** 

Note: Glass privacy ratings may be more or less than indicated, based on glass design and size of glass. Glass designs may differ from depiction due to size of glass and hand craftsmanship. See your Therma-Tru seller or visit www.thermatru.com for more details.

#### Salinas<sub>®</sub> Page 127

Oceana glass and wrought iron come together to create a cheerful entry glass design that offers the ultimate in privacy with yesterday's charm.

Wrought Iron

#### Element Page 130

Clean lines and contemporary styling make Element the ideal choice for entries with a modern aesthetic.

Modest privacy is achieved with the 1 red and 2 white wispy glass surrounded by black nickel caming.

Glass Privacy Rating

**Black Nickel** 

# Maple Park Page 131

With hints of Mission style and the American Southwest, Maple Park provides a sophisticated appearance with 1 waterglass, 2 clear bevels, 3 granite glass and caming. The curved design adds unique appeal.

**Black Nickel** 

**Brushed Nickel** 

#### Avonlea<sub>®</sub> Page 133

The dainty leaf design seemingly grows upward in this elegant glass design. Light pours through

Avonlea's 1 clear baroque glass and bronze waterglass surrounded by black nickel caming.

Glass Privacy Rating

**Black Nickel** 

#### Saratoga™ Page 135

Saratoga evokes a certain urban sophistication while offering modest privacy with its 1 clear bevels,

2 diamond glass, 3 reed glass and caming. The geometric pattern bridges both modern and traditional designs.

Black Nickel

Brushed Nickel

#### Arden<sub>®</sub> Page 138

Reminiscent of historic leaded glass with modern sensibilities, Arden glass features an architectural pattern of smooth, wavy 1 frosted delta glass, lightly textured 2 chinchilla glass and elegant 3 diamond bevels with flexible options to customize accent glass textures and caming.

Glass Privacy Rating

Red Waterglass /

Granite Glass / Brushed Nickel

Note: Glass privacy ratings may be more or less than indicated, based on glass design and size of glass. Glass designs may differ from depiction due to size of glass and hand craftsmanship. See your Therma-Tru seller or visit www.thermatru.com for more details.

#### Texas Star Page 140

Beautifully crafted with 10 clear bevels,

- 2 curved bevels, 3 clear waterglass,
- 4 granite glass, 5 glue chip glass and brushed nickel caming, there's no mistaking the inspiration for this recognizable design. Strong, independent and all-American.

**Brushed Nickel** 

#### Wellesley™ Page 142

Simple yet charming, Wellesley's
Victorian-inspired design uses 1 clear
baroque glass, 2 clear curved bevels,
3 waterglass, 4 granite glass and
caming to add beauty to any entry.

Glass Privacy Rating

Brushed Nickel

Brass

# Concorde<sub>™</sub> Page 145

There's just something friendly about Concorde's cheery four-leaf design.

1 Glue chip glass, 2 clear curved bevels, 3 clear glass and caming make up its Old World charm.

Glass Privacy Rating

# Glass Privacy Rating Internal

Blinds Page 167

10

Internal blinds provide the privacy and convenience of a cordless blind enclosed between glass. A single-hand operator opens, closes and tilts the blinds to control the desired level of privacy and light.

# Screen Vented Page 168

Screen vented lites offer a built-in screen for ventilation, featuring a gliding operation and sash locking system.

Also Available: Clear Glass Page 172

# Contour or flat GBG bars are thermally sealed between two panes of tempered glass for the convenience of a smooth, easy-to-clean glass surface. Look for the ( 🍑 🌓 icons.

<sup>\*</sup>Available in Special Quote Program.

<sup>\*\*</sup>Not recommended for use behind storm doors or to be painted dark colors, if exposed to direct sunlight. Note: See page 261 for important product details that may help with your purchase decision.

#### **GBG Bar Options**

#### **GBG Color Options**

#### **Options Key**

- Simulated Divided Lites (SDL)\*\*
- Flat White Grilles Between Glass Only (GBGFW)
- Flat or Contour, White or Color Grilles Between Glass (GBGF / GBGC)
- Removable Wood Grilles (RG)
- Fixed Grilles (FXG)

# Flush-Glazed Glass Page 169

- Glass built directly into the door features clean lines and a seamless appearance with up to a 16% wider daylight opening than conventional lite frames.
- Delivers long-term performance with glass surrounded by the door's polyurethane foam core, helping to provide durability and strength, and a high-performance dual adhesive weather seal, helping to prevent air and water infiltration.

#### Flush-Glazed Fiberglass Door Replacement Rider

Provides protection in case of accidental glass breakage during residential and multi-family construction or installation. Therma-Tru will replace the flush-glazed fiberglass door and glass.

Note: See your Therma-Tru seller or visit www.thermatru.com for details on Rider, and limited warranty and exclusions.

### **Noise Reduction Doors**

Therma-Tru<sub>®</sub> Noise Reduction doors deliver aesthetics with a commercial level of performance for residential projects. Ideal for multi-use and urban in-fill projects located near sources of noise pollution, our Noise Reduction doors provide a Sound Transmission Class (STC) rating of 36. Our Noise Reduction lites also offer added security from forced entry with laminated glass surrounded by a standard Lip-lite frame.

Note: Also available in decorative full-view glass option in aluminum Lip-lite frame.

# Profiles, Steel

Versatile, affordable options.

Coupling distinctive styling with affordability,
Profiles steel doors offer versatile front entry
and house-to-garage options. Designed to
suit multiple home styles, these doors feature
triple-shadowed panel embossments for
greater detail.

Top: Profiles, Frosted Images Glass, Door – 206EHD, Sidelite – 289ESLHD Bottom: Profiles, Sedona Glass, Door – 996HD, Sidelite – 139SL

### Back to basics.

It's back to basics with Traditions. This line of steel doors combines attractive designs and value-based options to create a great, cost-conscious alternative for front entry and house-to-garage.

### Profiles Mark & Traditions Steel Doors

Find style at an affordable price point with options to match any home style and budget in Profiles and Traditions doors. Fire-rated options on 6'8" solid-panel doors make a perfect choice for house-to-garage.

- 1-1/4" lock and hinge stiles.
- 12-1/2" lock blocks.
- No stile lines.
- Primed, ready-to-paint surface.
- WBDR / HVHZ Options: Look for this icon to find door styles that can be configured for WBDR or HVHZ.\*
- 20-Minute Fire-rated options available on 6'8" solid-panel doors. See page 217.

### Profiles<sub>™</sub> Steel

Features 24-gauge steel, smooth surface and triple-shadowed panel embossments for greater definition.

### **Traditions Steel**

Features 25-gauge steel, standard embossed smooth surface.

All 8'0" doors are 24-gauge steel with standard embossments.

## Fire Doors

Classic-Craft, Fiber-Classic, Smooth-Star, & Steel

Safety first.

## Adjusta-Fit, 2 Frame

Using the right frame is critical in any top-quality door installation, and never more so than with Fire-rated products. Therma-Tru Adjusta-Fit 2 frame technology helps ensure an optimum fit and long-lasting performance. The frames are constructed with a commercial-grade, 18-gauge base frame; galvanized steel and factory-coated paint finish; and an all-aluminum, thermally broken threshold. These features make them ideal for interior and exterior applications, including corridor openings and outside unit entries.

## Therma-Tru. Adjusta-Fit 2 frames also feature these key benefits:

- 90-Minute positive-pressure
   Fire-rating, third-party certified by
   Intertek, Warnock-Hersey.
- Standard 4-1/8" ANSI 115.1, or 2-1/4" T-lip strike prep option.
- Choice of standard, public access or no-sill options.
- Minimum 22-gauge closure with 1" of adjustability, suitable for walls from 4"-9-1/2" deep.

<sup>\*</sup>To confirm Fire door requirements in your jurisdiction, always check with your local building code authority.

## 90-Minute Fire-Rated Steel Edge

Therma-Tru's TR 12-24 Steel Edge doors and door systems provide outstanding protection. Constructed with 24-gauge steel edges and tested to withstand at least 90 minutes of fire exposure at temperatures that reach more than 1,700 degrees Fahrenheit, the doors are perfect for multi-family living and house-to-garage projects. Available in a variety of door styles, sizes and lock preparations, the units are suitable for a minimum 4" wall depth or greater. Therma-Tru also offers all the necessary components – frame, weatherstrip, bottom sweep and sill – to complete a 90-Minute Fire-rated door system.

WBDR / HVHZ Options: Look for this icon to find door styles that can be configured for WBDR or HVHZ in an Adjusta-Fit. 2 frame.\*

## 20-Minute Fire-Rated Wood Edge

Therma-Tru offers an industry-leading selection of fiberglass 20-Minute Fire-rated doors. All of our solid-panel fiberglass wood-edge doors can be ordered as 20-Minute Fire-rated product, featuring a proprietary cement-based core. Solid-panel steel wood-edge doors in select sizes can be ordered with the 20-Minute Fire-rated label. The doors are tested to withstand a minimum of 20 minutes of fire exposure at temperatures that reach more than 1,400 degrees Fahrenheit, and are certified and approved for use with mortise locks.

WBDR / HVHZ Options: Look for this icon to find steel door styles that can be configured for WBDR or HVHZ in a Therma-Tru-specified wood frame.\*

Modern design. Upbeat living.

Clean lines. Crisp angles. Sleek designs. Vintage style. Pulse is a contemporary series of door styles and glass designs that can be combined to make a bold statement. With four distinct aesthetic approaches – Ari, Línea, Echo and Solei – the entrance becomes modern art.

\*Please verify that there is a Therma-Tru product approval for the configuration before buying.

Note: Finish colors may vary from an actual application due to fluctuations in finishing or printing. Glass designs may differ from depiction due to size of glass and hand craftsmanship. See your Therma-Tru seller or visit www.thermatru.com for more, including details on limited warranties and exclusions, ENERGY STAR qualified products and product approvals.

## It's your decision, by design.

Pulse is geometry with energy. Designed to be fun and easy to mix and match with sleek, flush door and sidelite styles, you can create a modern entrance without missing a beat. Explore all the possible combinations at www.thermatru.com/pulse. Mix and match to get the style numbers needed to order. Turn the page for a glimpse of available styles and sizes.

## The creativity is unlimited. Stain or paint the entrance any color.

These doors and sidelites come ready to stain or paint. So there's no limit to the creativity you can use when it comes to finishing touches.

#### 1 Start with a STYLE.

Combine doors and sidelites to create an entrance that fits your vision.

#### 2 Choose a MATERIAL.

Each style is available in any of these material choices.

#### Mahogany or Oak (Shown in Light Oak stain.)

#### Then select a GLASS.

Find an available glass design to complete the statement you want to make.

Blinds Available for Línea and Solei only.

## Vinyl Sliding Patio Doors

Fully assembled and ready to install.

Crafted to ensure smooth operation, Therma-True vinyl sliding patio units are delivered fully assembled and ready to install.

- Features fully adjustable rollers for smooth operation.
- Reinforced windows help provide security and weather protection.
- Engineered with a tamper-resistant, adjustable locking system - standard for security.
- Available Sizes: 5'0"-8'0" widths in 6'6" height.
- Configurations: Available in double and triple units.
- Glass Options: Clear, insulated glass with optional Low-E for increased energy efficiency. Optional contour or flat or grilles between glass available to customize the doors to complement window patterns.
- Optional DP-50 Impact-rated product available.

To view our full offering of vinyl sliding patio doors, please see your Therma-Tru seller or visit www.thermatru.com.

More than a beautiful door. A Therma-Tru® door system with genuine Therma-Tru components is engineered with craftsman precision for durability and reliability through the years. With weather resistance and energy efficiency so the door performs as exceptionally as it looks.

Visit our online replacement parts configurator and helpful videos to maintain the integrity of a complete door system with genuine Therma-Tru components – www.thermatru.com/parts.

## Sills

Allow for a tight seal to help block wind-driven moisture infiltration at the bottom of the door. Available in a variety of materials with features to meet the needs of different climates and exposures. Ask your Therma-Tru seller for a complete list of options.

### **Inswing Options**

# Composite Adjustable Sill 💠

**NEW** continuous length with spread mullion capability to fill 49"-75" rough openings.\*

Thick, through-colored wood-grained composite cap and nosing resist wear and rot, U-shaped weather seal adds protection, and flush stainless steel screws adjust to help maintain a tight seal.

#### **Hardwood Adjustable Sill**

Durable hardwood cap and nosing can be stained to match door and trim, U-shaped weather seal adds protection, and flush zinc dichromate screws adjust to help maintain a tight seal.

#### **Basic Composite Adjustable Sill**

Wood-grained composite cap and nosing resist rot, adds protection, and zinc dichromate screws with removable screw caps adjust to help maintain a tight seal.

#### **Basic Fixed Sill**

Slanted cap and nosing mates with the single-bulb bottom sweep to help form a tight seal.

#### **Moderate Climate Sill**

All-aluminum construction resists corrosion and slanted cap helps maintain contact with the door bottom.

#### Inswing Sill Extenders

### **Outswing Options**

#### Composite Outswing Sill 💠

Thick, through-colored wood-grained composite cap and nosing resist wear and rot, and integrated weatherstrip helps form a tight seal under wind pressure.

#### **Aluminum Sill with Thermal Break**

All-aluminum construction resists corrosion, and integrated weatherstrip helps form a tight seal under wind pressure. Also available without thermal break.

#### Coastal Sill (For Coastal Regions)

All-aluminum construction resists corrosion, extra-high cap profile provides improved resistance to wind-driven moisture infiltration, and integrated weatherstrip helps form a tight seal under wind pressure. Helps meet code requirements in HVHZ coastal regions.

#### Outswing Sill Extender

#### Public Access Sill

#### **Public Access Sill with Thermal Break\*\***

All-aluminum construction resists corrosion, and 1/2"- high surface with 1:2 ramp slope meets Americans with Disabilities Act (ADA) requirements. Also available without thermal break.

#### **Options Key**

<sup>\*</sup>See the Therma-Tru 2015 Architectural Details & Components manual for actual unit size specifications.

<sup>\*\*</sup>Door systems built with public access sills have little resistance to water penetration and have a potential to leak if installed exposed to weather. We recommend these systems be installed away from weather under large soffits or overhangs.

<sup>\*\*\*</sup>For full details on the Tru-Defense Warranty Rider, visit www.thermatru.com/trudefense.

Note: Finish colors may vary from an actual application due to fluctuations in finishing or printing. See page 261 for important product details that may help with your purchase decision.

## **Door Bottoms**

Designed to mate with our sills and help provide added protection to help seal the margin between the door and sill.

Kerf-applied for a secure fit and made of a heavy-duty material that holds its shape to help maintain contact.

### **Inswing Options**

Composite Adjustable Hardwood Adjustable Basic Composite Adjustable

Colors: Bronze Stone White

Non-kerf-applied option available for replacement applications. Available in bronze only.

## **Outswing Options**

## ADA / Replacement

## Sill Protection

Fits over the sill to help protect cap and finish from damage during installation. Made of a heavy-duty material to withstand wear, and available in a variety of options to fit our sills.

See page 247 for availability.

#### Sill Pan (Recommended) Fits between the sill and subfloor for an added layer of protection against moisture. Engineered with sloped channels to help collect and drain moisture away.

## Corner Seal Pads (Inswing Only)

Fit securely behind weatherstrip and mate with our inswing sills to help block wind-driven moisture from pushing through the corner and up the frame. (Not required for outswing sills.)

## Weatherstrip

Engineered in a variety of profiles for a precise seal between the door and frame. Made of a flexible, foam-filled material protected by a durable jacket to resist moisture and wear.

## Rain Protection (Recommended)

Helps repel moisture away from areas exposed to wind-driven moisture infiltration, enhancing weather protection. Highly recommended for applications directly exposed to wind and rain.

#### **Options Key**

## **Hardware**

## Multi-Point Locking Systems (MPLS) (Recommended)

Engages the door and frame at three critical points from top to bottom for enhanced stability compared to traditional deadbolt assemblies. Featuring premium stainless steel construction that resists corrosion.

(Highly recommended for 8'0" and double fiberglass doors. Not recommended for steel doors. Strike plate packages available to meet the installation needs of various MPLS applications.)

#### Standard Door MPLS 💠

**Tongue** (For single door systems.) Heights: **Configurations:** 6'6" Inswing 6'8" Outswing 7'0"

**Shootbolt** (For double door systems.) Heights: Configurations: 6'6" Inswing 6'8" Outswing 7'0" 8'0"

Stainless Steel	•			•				
Zinc Dichromate	•							

Hinges position the door to properly compress the weatherstrip and help ensure smooth operation. Featuring options to suit various applications and mate with mortise pockets machined into our doors. Adjustable security strike plate wraps around the jamb and engages the frame for added support and strength, and resistance against forced entry. Tested to withstand up to three times the force of standard strike plates.\*

## **Astragals**

Cover the margin between double doors to help complete the seal against air and moisture infiltration, with aluminum construction for stability, holding power and durability. Available in a stainable wood-grained vinyl wrap or paintable aluminum.

Astragal

Configurations: Inswing Outswing Multi-Point Lock Double Bore Left-Handed Right-Handed

Finish Colors: Bronze White

Weatherstrip: Bronze

Available with strike plates to receive a latch and deadbolt or multi-point locking system.

Integrated weatherstrip helps form a tight seal between the astragal and active door when closed.

Durable boot engineered to work with the active bottom sweep to complete the seal across the sill.

16-1/2" locking steel slide bolt can be vertically adjusted for a secure fit with the sill and frame.

## Therma-Tru<sub>®</sub> Door Systems

## Independent Laboratory Performance Testing

At the time of manufacture, Therma-Tru exterior door systems (properly assembled with all genuine Therma-Tru components) have been tested under one or more of the following performance specifications: structural load, uniform load deflection, vertical load resistance, air infiltration, water penetration resistance, forced entry resistance, operating forces, force to latch, deglazing resistance, operating cycle performance, impact resistance, sound transmission, thermal performance and solar heat gain performance. Therma-Tru exterior door systems conform to the applicable Performance Standards / Test Methods that may include ANSI/AAMA/NWWDA 101/I.S.2, AAMA/WDMA 101/I.S.2/NAFS, AAMA/ WDMA/CSA 101/I.S.2-A440, ASTM E330. ASTM E547, ASTM E283, ASTM E 331, ANSI/BHMA A156.2, AAMA 1304, AAMA 920, AAMA 925, ASTM E2068, ASTM F842, ASTM E987, ASTM E1300, ASTM E90, ASTM E413, ASTM E1332, ASTM E1886, ASTM E1996, PA/TAS 201, PA/TAS 202, PA/TAS 203, HUD UM89, AAMA 1702.2. 24 CFR 3280, 24 CFR 3282, NFRC 100 and NFRC 200. Refer to www.thermatru.com for design pressure and other performance ratings.

#### Doors

Recommended Door Overhang – For best performance, all doors should be protected by an overhang. The recommended size is half the distance from the base of the door to the bottom of the overhang. So, as an example, a distance of 10' for this dimension would require an overhang of 5' minimum. For wetter climates, southern or western exposures, and for double doors, the overhang should be the same as the distance from the base of the door to the bottom of the overhang. In this same example, the dimension is 10' so the overhang should be 10'.

For best performance, double doors to be used in areas with severe weather exposure must be installed using entry alcoves or large soffit overhangs to protect entry unit from exposure. Multi-point locking systems are highly recommended for 8'0" and double door applications.

#### Doorlites

Doorlites are insulated, and exposed panes are tempered. Optional wood grilles available for clear doorlites and transoms.

Inserts – All glass (except flush-glazed styles) shall be bedded with glazing mastic and secured in doors with screws. Therma-Tru's SMC and BTS doorlite frames are available for most styles except where noted. SMC and BTS frames shall resist significant deformation by heat up to 200 F, regardless of paint or stain color or placement behind a storm door.

PVC doorlite frames and dividers must be finished within 30 days of installation. Failure to do so will increase the chance for product damage of the type that is not covered by the warranty. PVC doorlite frames and dividers are not recommended for use behind storm doors or to be painted dark colors, if exposed to direct sunlight.

Decorative Glass & Wrought Iron – Each Therma-Tru decorative glass unit is handcrafted by skilled artisans replicating Old World techniques. Each piece is a unique work of art and many things that would appear to be imperfections (small bubbles, lines and waves within the glass) are normal and are part of the Old World charm.

Condensation occurs naturally in the home, caused by excessive humidity in the air. Often this harmless water vapor can be seen collecting on glass surfaces, such as doorlites. Energy-efficient glass units in Therma-Tru door systems are constructed to keep the glass as warm as possible, reducing condensation build-up. However, there is no such thing as a condensation-free window or doorlite in high-humidity conditions.

NOTE: Glass privacy ratings are determined by the 1/2-lite glass size. As a result, the amount of privacy / glass transparency may be more or less than indicated by the privacy rating, based on the glass design and size of the glass that is inserted into the door, sidelite or transom.

Glass designs may differ from depiction due to the size of glass and hand craftsmanship. See your Therma-Tru seller or visit www.thermatru.com for more details.

#### Components

Adjustable Security Strike Plate – Proprietary adjustable type, permitting in-out adjustment of door in frame, up to 3/16".

Hinges – Minimum hinge size 4" x 4" x .098".

Ball-bearing hinges are recommended for 8'0" doors, doors using heavy lites (e.g., wrought iron), all 20-minute Fire-rated fiberglass doors, impact-rated doors and glass, and all Classic-Craft doors.

Use of the multi-point locking system is highly recommended for 8'0" and double fiberglass doors. Not recommended for steel doors.

Please be aware that single door units built with public access sills have little resistance to water penetration, and double doors built with these sills have a potential to leak if installed exposed to weather. We recommend that units be installed away from weather under large soffits or overhangs.

Use of a sill pan is recommended.

Fiber-Classic and Smooth-Star dentil shelves are not recommended for placement behind storm doors or to be painted dark colors, if exposed to direct sunlight.

#### **Impact-Rated Products**

Impact-rated products must be installed as part of a Therma-Tru door system in compliance with a Therma-Tru product approval. Visit www.thermatru.com for product approvals and full details on WBDR- (Wind-Borne Debris Region) / HVHZ- (High Velocity Hurricane Zone) compliant products. Follow weather and news reports in order to assess severe weather situations and obey local authorities' shelter and evacuation orders. No product guarantees safety for persons or property, nor makes any premises hurricane- or impact-proof.

#### **Fire-Rating Performance Standards**

Fire and building codes vary throughout the country and acceptance of products and labels is left to the discretion of the local authorities.

MODIFICATION OF PRODUCTS DESCRIBED IN THIS BROCHURE WHICH CARRY FIRE RATINGS (DOORS AND FRAMES) MAY VOID THE FIRE RATINGS.

Test conducted by Intertek, Warnock-Hersey.

#### **Limited Warranties**

Please be aware of the applicable Therma-Tru Limited Warranty which contains important restrictions, disclaimers, exclusions and conditions, as well as the below listed Installation, Finishing & Maintenance documents, related to the Therma-Tru product purchased (e.g., Fiberglass, Steel, Patio Door Systems), all of which can be obtained from your Therma-Tru seller or found in their entirety at www.thermatru.com:

- Therma-Tru<sub>0</sub> Fiberglass and Steel Door Systems Residential Limited Warranty: Fiberglass – Classic-Craft., Fiber-Classic., Smooth-Star. and Pulse. Door Systems; Steel – Pulse., Profiles., Traditions and Therma-Tru<sub>0</sub> Fire Door (TR 12-24) Steel Edge Door Systems
- Therma-Tru<sub>\*</sub> Vinyl Sliding Patio Door Systems Residential 10-Year Limited Warranty: PVI Sliding Patio Doors
- Therma-Tru<sub>\*</sub> Tru-Defense<sub>\*</sub> Door System Rider to Fiberglass Door Systems Limited Warranty: Classic-Craft<sub>\*</sub>, Fiber-Classic<sub>\*</sub>, Smooth-Star<sub>\*</sub> and Pulse<sub>\*</sub> Fiberglass Door Systems
- Therma-Tru<sub>\*</sub> Construction Glass Breakage Rider to Fiberglass Door Systems Limited Warranty for Residential and Multi-Resident Premises: Classic-Craft<sub>\*</sub>, Fiber-Classic<sub>\*</sub> and Smooth-Star<sub>\*</sub> Flush-Glazed Fiberglass Door Systems
- Same-Day, Stain 5-Year Limited Warranty: Same-Day, Stain and Topcoat for Use on Therma-Tru, Fiberglass Door Systems and Fypon, Stainable Polyurethane Products

#### Installation, Finishing & Maintenance

Installation, finishing and maintenance must be performed according to Therma-Tru's recommendations to comply with warranty requirements. Obtain a copy of the following documents outlining recommendations from your Therma-Tru seller or find them in their entirety at www.thermatru.com:

- Installation Instructions
- Therma-Tru Fiberglass and Steel Door Systems Recommendations for Proper Finishing and Painting or Staining

NOTE: Finish colors may vary from an actual application due to fluctuations in finishing or the printing of this catalog. See your Therma-Tru seller or visit www.thermatru.com for more details.
